- **ALL Food Vendors (food, lemonade, donut, ice cream, etc) must supply a copy of their food license and proof of insurance to the Flea Market Staff prior to the start of the season.**

 1. Eggs must be sold directly to the consumer, not a wholesaler or distributor.
 2. Eggs must be packaged in a carton that is labeled with the producer's name, address, the date the eggs were packed into the carton, a sell-by date within 30 days, and a statement indicating that the eggs in the package are ungraded and uninspected.
 3. Retail sale packaged eggs must be always kept at an ambient temperature no higher than 41° F.
 4. Registration is required for egg producers who collect, package, and store next-run eggs from a flock of laying birds owned by the producer. There is no charge for registering. Registration is a useful tool to the department in the event of an animal disease outbreak that requires food safety personnel to contact egg producers. Use the Nest Run Egg Producer and Seller Registration Form to complete the registration process.
